Company Profile

Core Competencies: R5 CSG is transforming I.T. consulting solutions through a personal based recruitment process using our years of personal knowledge in the technical arena, vast experience, and understanding of the process and procedures associated with retaining the most knowledgeable passionate information technology I.T. professionals. We know who your looking for, and we can help you find them. We strive to add a personal touch to provide our clients the highest level quality professional services in order to increase their competitive advantage by unifying high quality technology solutions to reduce costs, decrease cycle times, and seamlessly manage business processes throughout our clients enterprises. Our company's advantage comes in the extensive and passionate information technology knowledge that our professionals have. Further we stand above and beyond our competition in that we are a woman owned disabled veteran business.

Brief History: Founded in 2016, R5 CSG has a combined experience of over 20 years of IT, Accounting, and Business experience working within the Health Care, DoD, and Intelligence community.

Value Proposition: Our aim is to build teams that encourage each other, while cultivating a culture of passionate people, professionalism, and mission oriented success.

Competitive Advantage: R5 CSG is a 100% woman, disabled veteran owned, small business dedicated to finding talented people to help your mission succeed.

Capabilities and Capacity

Services: R5 CSG is an information technology consulting solutions group that attracts, recruits, and retains the most knowledgeable passionate professionals with years of experience in commercial, civilian, defense, intelligence, and the health care markets. Additionally, using key business partnerships., we offer data-center equipment and software at competitive prices.

Geographical area served: Continental USA, East Coast, and the DC Area.
